## VOLUME SUBJECT INDEX

## A

**4-Aminopyridine** Two Components of Transient Outward Current in Canine Ventricular Myocytes, 633

**A23187** Release of Different Relaxing Factors by Cultured Porcine Endothelial Cells, 1070

**Acetylcholine** Anti-Cholinergic Effects of Quinidine, Disopyramide, and Procainamide in Isolated Atrial Myocytes: Mediation by Different Molecular Mechanisms, 297

Cholinergic Mechanisms in the Cerebral Circulation of the Newborn Piglet: Effect of Inhibitors of Arachidonic Acid Metabolism, 1030

Impaired Canine Coronary Vasodilator Response to Acetylcholine and Bradykinin After Occlusion-Reperfusion, 43

**Actin** ATPase Activity of the Cross-linked Complex Between Cardiac Myosin Subfragment 1 and Actin in Several Models of Chronic Overloading: A New Approach to the Biochemistry of Contractility, 1106

Regional Differences in the In Vivo Synthesis and Degradation of Myosin Subunits in Rabbit Ventricular Myocardium, 193

**Action potential duration** Late Sodium Current and Its Contribution to Action Potential Configuration in Guinea Pig Ventricular Myocytes, 389

Simultaneous Measurements of Action Potential Duration and Intracellular ATP in Isolated Ferret Hearts Exposed to Cyanide, 583

**Activation-recovery interval** Estimating Cardiac Transmembrane Activation and Recovery Times From Unipolar and Bipolar Extracellular Electrograms: A Simulation Study, 449

**Activation maps** Vagally Induced Block and Delayed Conduction as a Mechanism for Circus Movement Tachycardia in Frog Atria, 213

**Activation time** Estimating Cardiac Transmembrane Activation and Recovery Times From Unipolar and Bipolar Extracellular Electrograms: A Simulation Study, 449

**Adenine nucleotides** Transendothelial Transport and Metabolism of Adenosine and Inosine in the Intact Rat Aorta, 1147

**Adenosine** Oxygen Consumption and Coronary Reactivity in Postischemic Myocardium, 9

**Adenosine deaminase** Transendothelial Transport and Metabolism of Adenosine and Inosine in the Intact Rat Aorta, 1147

**Adenylate cyclase system** Effects of Malnutrition on Rat Myocardial  $\beta$ -Adrenergic and Muscarinic Receptors, 949

**ADP** Impaired Endothelium-Dependent Relaxation to Aggregating Platelets and Related Vasoactive Substances in Porcine Coronary Arteries in Hypercholesterolemia and Atherosclerosis, 900

Release of Different Relaxing Factors by Cultured Porcine Endothelial Cells, 1070

**ADP/ATP carrier** Antibodies to the ADP/ATP Carrier, an Autoantigen in Myocarditis and Dilated Cardiomyopathy, Penetrate Into Myocardial Cells and Disturb Energy Metabolism In Vivo, 179

**Adrenalectomy** Reflex Modulation of Lymphatic Pumping in Sheep, 1165

**Adrenergic innervation** Chronotropic Responsiveness of Developing Sinoatrial and Ventricular Rat Myocytes to Autonomic Agonists Following Adrenergic and Cholinergic Innervation In Vitro, 1051

**Adrenoceptors** Autoantibodies Against  $\beta$ -Adrenoceptors in Human Idiopathic Dilated Cardiomyopathy, 97

**Adrenocorticotrophic hormone** Role of Vagosympathetic Fibers in the Control of Adrenocorticotrophic Hormone, Vasopressin, and Renin Responses to Hemorrhage in Fetal Sheep, 515

**Afferent nerves** Cardiac Sympathetic Afferent Cell Bodies Are Located in the Peripheral Nervous System of the Cat, 554

**Albumin** Macromolecular Transport Within Heart Valves, 1213

**Albumin permeation** Mechanisms Underlying Atriopeptin-Induced Increases in Hematocrit and Vascular Permeation in Rats, 890

$\alpha$ -**Adrenergic constriction** Heterogeneous Microvascular Coronary  $\alpha$ -Adrenergic Vasoconstriction, 376

$\alpha_1$ -**Adrenergic receptor** Identification of  $\alpha_1$ -Adrenergic Receptors on Sarcolemma From Normal Subjects and Patients With Idiopathic Dilated Cardiomyopathy: Characteristics and Linkage to GTP-Binding Protein, 474

$\alpha,\beta$ -**Methylene ATP** A New Protocol for Removal of the Endothelium From the Perfused Rat Hind-Limb Preparation, 1190

$\alpha$ -**Skeletal actin** Nonsynchronous Accumulation of  $\alpha$ -Skeletal Actin and  $\beta$ -Myosin Heavy Chain mRNAs During Early Stages of Pressure-Overload-Induced Cardiac Hypertrophy Demonstrated by In Situ Hybridization, 937

Stimulation of Aortic Smooth Muscle Prostacyclin by Serotonin: Role of Distinct Receptors in Contractile and Synthetic States, 806

**Prostaglandins**  
Reactive Oxygen Metabolites Relax the Lamb Ductus Arteriosus by Stimulating Prostaglandin Production, 1

**Prostanoids**  
Cholinergic Mechanisms in the Cerebral Circulation of the Newborn Piglet: Effect of Inhibitors of Arachidonic Acid Metabolism, 1030

Vascular Responses to Vasopressin are Tone-Dependent in the Cerebral Circulation of the Newborn Pig, 136

**Protease**  
Collagen-Stimulated Human Platelet Aggregation Is Mediated by Endogenous Calcium-Activated Neutral Protease, 407

**Protein degradation**  
Regional Differences in the In Vivo Synthesis and Degradation of Myosin Subunits in Rabbit Ventricular Myocardium, 193

**Protein synthesis**  
Contraction Modulates the Capacity for Protein Synthesis During Growth of Neonatal Heart Cells in Culture, 542

Load Responsiveness of Protein Synthesis in Adult Mammalian Myocardium: Role of Cardiac Deformation Linked to Sodium Influx, 74

Mechanisms of Differential Growth of Heart Ventricles in Newborn Pigs, 360

Regional Differences in the In Vivo Synthesis and Degradation of Myosin Subunits in Rabbit Ventricular Myocardium, 193

**Protein turnover**  
Mechanisms of Differential Growth of Heart Ventricles in Newborn Pigs, 360

**Proximal convoluted tubule**  
Role of Prostaglandins in Proximal Tubule Sodium Reabsorption: Response to Elevated Renal Interstitial Hydrostatic Pressure, 1013

**Pulmonary circulation**  
Measurement of Lung Microvascular Pressure in the Intact Anesthetized Rabbit by the Micropuncture Technique, 167

**Pulmonary hypertension**  
SC-39026, a Serine Elastase Inhibitor, Prevents Muscularization of Peripheral Arteries, Suggesting a Mechanism of Monocrotaline-Induced Pulmonary Hypertension in Rats, 814

**Pulmonary microembolism**  
Lipoxygenase Products Induce Neutrophil Activation and Increase Endothelial Permeability After Thrombin-Induced Pulmonary Microembolism, 62

**Pulmonary permeability**  
Thromboxane A<sub>2</sub> Mediates Increased Pulmonary Microvascular Permeability Following Limb Ischemia, 1178

**Purine salvage**  
Transendothelial Transport and Metabolism of Adenosine and Inosine in the Intact Rat Aorta, 1147

**Purkinje fibers**  
Early Afterdepolarizations: Mechanism of Induction and Block. A Role for L-Type  $\text{Ca}^{2+}$  Current, 977

**Quick release**  
Time-Invariant Oxygen Cost of Mechanical Energy in Dog Left Ventricle: Consistency and Inconsistency of Time-Varying Elastance Model With Myocardial Energetics, 764

**Rabbit**  
Beneficial Effect of Chronic Bradycardial Pacing on Capillary Growth and Heart Performance in Volume Overload Heart Hypertrophy, 1205

Macromolecular Transport Within Heart Valves, 1213

**Rapid freezing**  
Subcellular Calcium Content in Cardiomyopathic Hamster Hearts In Vivo: An Electron Probe Study, 1001

**Rat**  
ATPase Activity of the Cross-linked Complex Between Cardiac Myosin Subfragment 1 and Actin in Several Models of Chronic Overloading: A New Approach to the Biochemistry of Contractility, 1106

Chronotropic Stimulation: A Primary Effector for Release of Atrial Natriuretic Factor, 799

Lipid Alterations in Isolated, Working Rat Hearts During Ischemia and Reperfusion: Its Relation to Myocardial Damage, 304

Pressure-Dependent Contraction of Rat Juxtamedullary Afferent Arterioles, 790

Role of Molecular Charge in Disruption of the Blood-Brain Barrier During Acute Hypertension, 658

Role of Prostaglandins in Proximal Tubule Sodium Reabsorption: Response to Elevated Renal Interstitial Hydrostatic Pressure, 1013

**Reactive dilation**  
Characteristics of Flow-Mediated Brachial Artery Vasodilation in Human Subjects, 32

**Reactive hyperemia**  
Characteristics of Flow-Mediated Brachial Artery Vasodilation in Human Subjects, 32

Effects of Atrial Natriuretic Peptide on Transmural Blood Flow and Reactive Hyperemia in the Presence of Flow-Limiting Coronary Stenosis in the Awake Dog: Evidence for Dilatation of the Intramural Vasculature, 600

**Recovery time**  
Estimating Cardiac Transmembrane Activation and Recovery Times From Unipolar and Bipolar Extracellular Electrograms: A Simulation Study, 449

**Reduced energy generation**  
Effect of Reduced Energy Metabolism and Reperfusion on the Permeability and Morphology of the Capillaries of an Isolated Rete Mirabile, 243

**Reentry**  
Vagally Induced Block and Delayed Conduction as a Mechanism for Circus Movement Tachycardia in Frog Atria, 213

**Refractory period**  
Protection Against Autonomic Denervation Following Acute Myocardial Infarction by Preconditioning Ischemia, 437

**Regional function**  
"Reperfusion Injury" by Oxygen-Derived Free Radicals?: Effect of Superoxide Dismutase Plus Catalase, Given at the Time of Reperfusion, on Myocardial Infarct Size, Contractile Function, Coronary Microvasculature, and Regional Myocardial Blood Flow, 86

**Regional wall motion**  
Duration of Ischemia Is Vital for Collateral Development: Repeated Brief Coronary Artery Occlusions in Conscious Dogs, 287

**Relaxation**  
Determinants of Left Ventricular Filling and of the Diastolic Pressure-Volume Relation, 827

**Renal denervation**  
Role of Renal Nerves in the Potentiation of Atriopeptin-Induced Natriuresis by Vasopressin, 370

**Renal function**  
Role of Renal Nerves in the Potentiation of Atriopeptin-Induced Natriuresis by Vasopressin, 370

**Renin**  
Role of Vagosympathetic Fibers in the Control of Adrenocorticotrophic Hormone, Vasopressin, and Renin Responses to Hemorrhage in Fetal Sheep, 515

**Renin-angiotensin**  
Lesion of the Area Postrema Region Attenuates Hypertension in Spontaneously Hypertensive Rats, 129

Renin-Angiotensin II Response to the Hemodynamic Pathology of Ovines With Ventricular Septal Defect, 524

**Repeated coronary occlusions**  
Significance of the Transmural Diminution in Regional Hydrogen Ion Production After Repeated Coronary Artery Occlusions, 616

**Reperfusion**  
Effect of Reduced Energy Metabolism and Reperfusion on the Permeability and Morphology of the Capillaries of an Isolated Rete Mirabile, 243

Lipid Alterations in Isolated, Working Rat Hearts During Ischemia and Reperfusion: Its Relation to Myocardial Damage, 304

Oxygen Consumption and Coronary Reactivity in Postischemic Myocardium, 9

"Reperfusion Injury" by Oxygen-Derived Free Radicals?: Effect of Superoxide Dismutase Plus Catalase, Given at the Time of Reperfusion, on Myocardial Infarct Size, Contractile Function, Coronary Microvasculature, and Regional Myocardial Blood Flow, 86

Thromboxane A<sub>2</sub> Mediates Increased Pulmonary Microvascular Permeability Following Limb Ischemia, 1178

**Rete mirabile**  
Effect of Reduced Energy Metabolism and Reperfusion on the Permeability and Morphology of the Capillaries of an Isolated Rete Mirabile, 243

**Ribosomal subunits**  
Mechanisms of Differential Growth of Heart Ventricles in Newborn Pigs, 360

**RNA**  
Mechanisms of Differential Growth of Heart Ventricles in Newborn Pigs, 360

**Ryanodine**  
High Molecular Weight Proteins Purified From Cardiac Junctional Sarcoplasmic Reticulum Vesicles Are Ryanodine-Sensitive Calcium Channels, 779

Mechanisms of Automaticity in Subsidiary Pacemakers From Cat Right Atrium, 648

**Sarcoplasmic reticulum**  
Calmodulin Modulation of Single Sarcoplasmic Reticulum Ca<sup>2+</sup>-Release Channels From Cardiac and Skeletal Muscle, 352

High Molecular Weight Proteins Purified From Cardiac Junctional Sarcoplasmic Reticulum Vesicles Are Ryanodine-Sensitive Calcium Channels, 779

Inotropic Responses to Isoproterenol and Phosphodiesterase Inhibitors in Intact Guinea Pig Hearts: Comparison of Cyclic AMP Levels and Phosphorylation of Sarcoplasmic Reticulum and Myofibrillar Proteins, 104

Mechanisms of Automaticity in Subsidiary Pacemakers From Cat Right Atrium, 648

Two Components of Transient Outward Current in Canine Ventricular Myocytes, 633

**Sarcoplasmic reticulum**  
Specific Binding of [<sup>3</sup>H]LY186126, an Analogue of Indolidan (LY195115), to Cardiac Membranes Enriched in Sarcoplasmic Reticulum Vesicles, 1037

**Secretion**  
Chronotropic Stimulation: A Primary Effector for Release of Atrial Natriuretic Factor, 799

**Serotonin**  
Impaired Endothelium-Dependent Relaxation to Aggregating Platelets and Related Vasoactive Substances in Porcine Coronary Arteries in Hypercholesterolemia and Atherosclerosis, 900

Stimulation of Aortic Smooth Muscle Prostacyclin by Serotonin: Role of Distinct Receptors in Contractile and Synthetic States, 806

**Shear stress**  
Patterns of Endothelial Microfilament Distribution in the Rabbit Aorta In Situ, 21

**Sheep**  
Role of Vagosympathetic Fibers in the Control of Adrenocorticotrophic Hormone, Vasopressin, and Renin Responses to Hemorrhage in Fetal Sheep, 515

**Shortening anisotropy**  
Relation Between Longitudinal, Circumferential, and Oblique Shortening and Torsional Deformation in the Left Ventricle of the Transplanted Human Heart, 915

**Shortening deactivation**  
End-Systolic Pressure As a Balance Between Opposing Effects of Ejection, 265

**Signal transduction**  
Polyamines Mediate Androgenic Stimulation of Calcium Fluxes and Membrane Transport in Rat Heart Myocytes, 415

**Single heart cell**  
Two Components of Transient Outward Current in Canine Ventricular Myocytes, 633

**Sinoatrial node**  
Chronotropic Responsiveness of Developing Sinoatrial and Ventricular Rat Myocytes to Autonomic Agonists Following Adrenergic and Cholinergic Innervation In Vitro, 1051

**Skeletal muscle**  
β-Adrenergic Receptor Distribution Among Muscle Fiber Types and Resistance Arterioles of White, Red, and Intermediate Skeletal Muscle, 1096

**Slow inactivation**  
Late Sodium Current and Its Contribution to Action Potential Configuration in Guinea Pig Ventricular Myocytes, 389

**Smooth muscle**  
Mechanism of Calcium Channel Block by D600 in Single Smooth Muscle Cells From Rabbit Ear Artery, 928

Release of Different Relaxing Factors by Cultured Porcine Endothelial Cells, 1070

**Sodium channel**  
Late Sodium Current and Its Contribution to Action Potential Configuration in Guinea Pig Ventricular Myocytes, 389

**Sodium excretion**  
Role of Renal Nerves in the Potentiation of Atriopeptin-Induced Natriuresis by Vasopressin, 370

**Sodium influx**  
Load Responsiveness of Protein Synthesis in Adult Mammalian Myocardium: Role of Cardiac Deformation Linked to Sodium Influx, 74

**Sodium nitroprusside**  
Effects of Calcium Channel Antagonists on Carotid Sinus Baroreflex Control of Arterial Pressure and Heart Rate in Anesthetized Dogs, 276

**Spontaneously hypertensive rats**  
Vascular Remodeling and Improvement of Coronary Reserve After Hydralazine Treatment in Spontaneously Hypertensive Rats, 1127

**SQ 29,548**  
Role of Thromboxane  $A_2$  in the Control of Myocardial  $O_2$  Supply/Consumption Balance and Severity of Ischemia During Pacing-Induced Ischemia, 575

**Squirrel monkey**  
Macromolecular Transport Within Heart Valves, 1213

**Stellate ganglion**  
Cardiac Sympathetic Afferent Cell Bodies Are Located in the Peripheral Nervous System of the Cat, 554

**Stroke volume**  
Long-term Versus Intrabeat History of Ejection As Determinants of Canine Ventricular End-Systolic Pressure, 255

**Superoxide**  
Reactive Oxygen Metabolites Relax the Lamb Ductus Arteriosus by Stimulating Prostaglandin Production, 1

**Superoxide dismutase**  
Effect of Superoxide Dismutase on Myocardial Infarct Size in the Canine Heart After 6 Hours of Regional Ischemia and Reperfusion: A Demonstration of Myocardial Salvage, 665  
Higher Antioxidative Capacity During a Chronic Stable Heart Hypertrophy, 398  
"Reperfusion Injury" by Oxygen-Derived Free Radicals?: Effect of Superoxide Dismutase Plus Catalase, Given at the Time of Reperfusion, on Myocardial Infarct Size, Contractile Function, Coronary Microvasculature, and Regional Myocardial Blood Flow, 86

**Sympathetic**  
Neuropeptide Y as a Putative Modulator of the Vagal Effects on Heart Rate, 882

**Sympathetic nerve activity**  
Differential Control of Adrenal and Renal Sympathetic Nerve Activity During Hemorrhagic Hypotension in Rats, 686  
Stimulation of Renal Sympathetic Activity by Static Contraction: Evidence for Mechanoreceptor-Induced Reflexes From Skeletal Muscle, 592

**Sympathetic nervous system**  
Angiotensin-Converting Enzyme Inhibition and the Upper Limit of Cerebral Blood Flow Autoregulation: Effect of Sympathetic Stimulation, 1197  
Reflex Modulation of Lymphatic Pumping in Sheep, 1165

**Systolic shortening**  
Significance of the Transmural Diminution in Regional Hydrogen Ion Production After Repeated Coronary Artery Occlusions, 616

**Tachycardia**  
Electrophysiological and Anatomic Differences Between Canine Hearts With Inducible Ventricular Tachycardia and Fibrillation Associated With Chronic Myocardial Infarction, 155

**Terminal arteriolar function**  
Arteriolar Control of Capillary Cell Flow in Striated Muscle, 112

**Testosterone**  
Polyamines Mediate Androgenic Stimulation of Calcium Fluxes and Membrane Transport in Rat Heart Myocytes, 415

**Tetraethylammonium**  
Longitudinal Propagation of Contraction in the Isolated Coronary Arteries of Humans and Pigs, 734

**Tetrodotoxin**  
Late Sodium Current and Its Contribution to Action Potential Configuration in Guinea Pig Ventricular Myocytes, 389

**Thoracic vest**  
Circulatory Assistance by Intrathoracic Pressure Variations: Optimization and Mechanisms Studied by a Mathematical Model in Relation to Experimental Data, 703

**Thrombin**  
Impaired Endothelium-Dependent Relaxation to Aggregating Platelets and Related Vasoactive Substances in Porcine Coronary Arteries in Hypercholesterolemia and Atherosclerosis, 900

**Thromboxane**  
Thromboxane  $A_2$  Mediates Increased Pulmonary Microvascular Permeability Following Limb Ischemia, 1178

**Tolerance**  
Basic Polypeptides Rich in Arginine, Lysine, or Ornithine Cause Both Enhancement of and Refractoriness to Formation of Endothelium-Derived Nitric Oxide in Pulmonary Artery and Vein, 315

**Torsional deformation**  
Relation Between Longitudinal, Circumferential, and Oblique Shortening and Torsional Deformation in the Left Ventricle of the Transplanted Human Heart, 915

**Transfer function**  
Digital Angiographic Impulse Response Analysis of Regional Myocardial Perfusion: Linearity, Reproducibility, Accuracy, and Comparison With Conventional Indicator Dilution Curve Parameters in Phantom and Canine Models, 853

**Transient outward current**  
Two Components of Transient Outward Current in Canine Ventricular Myocytes, 633

**Transplanted human heart**  
Relation Between Longitudinal, Circumferential, and Oblique Shortening and Torsional Deformation in the Left Ventricle of the Transplanted Human Heart, 915

**Triacylglycerols**  
Lipid Alterations in Isolated, Working Rat Hearts During Ischemia and Reperfusion: Its Relation to Myocardial Damage, 304

**Tricuspid anulus/orifice area**  
Real-Time and Simultaneous Measurement of Tricuspid Orifice and Tricuspid Anulus Areas in Anesthetized Dogs, 427

**Tubuloglomerular feedback**  
Pressure-Dependent Contraction of Rat Juxtamedullary Afferent Arterioles, 790

**Tumor**  
Effects of Malnutrition on Rat Myocardial  $\beta$ -Adrenergic and Muscarinic Receptors, 949

**Ultrastructure**  
Electrophysiological Properties of Cultured Dog Myocytes Obtained by Endomyocardial Biopsy, 203

**Unipolar electrogram**  
Estimating Cardiac Transmembrane Activation and Recovery Times From Unipolar and Bipolar Extracellular Electrograms: A Simulation Study, 449

**Use-dependent block**  
Mechanism of Calcium Channel Block by D600 in Single Smooth Muscle Cells From Rabbit Ear Artery, 928

**Vagal afferents**  
Differential Control of Adrenal and Renal Sympathetic Nerve Activity During Hemorrhagic Hypotension in Rats, 686

**Vagally induced block**  
Vagally Induced Block and Delayed Conduction as a Mechanism for Circus Movement Tachycardia in Frog Atria, 213

**Vagus nerve**  
Role of Vagovasopressin Fibers in the Control of Adrenocorticotrophic Hormone, Vasopressin, and Renin Responses to Hemorrhage in Fetal Sheep, 515

**Vascular morphology**

Vascular Remodeling and Improvement of Coronary Reserve After Hydralazine Treatment in Spontaneously Hypertensive Rats, 1127

**Vascular permeation**

Mechanisms Underlying Atriopeptin-Induced Increases in Hematocrit and Vascular Permeation in Rats, 890

**Vascular resistance**

Aortic Impedance and Hydraulic Power in the Chick Embryo From Stages 18 to 29, 1091

Mechanisms Underlying Atriopeptin-Induced Increases in Hematocrit and Vascular Permeation in Rats, 890

**Vascular smooth muscle**

ATP Regulation of the Slow Calcium Channels in Vascular Smooth Muscle Cells of Guinea Pig Mesenteric Artery, 145

Basic Polyamino Acids Rich in Arginine, Lysine, or Ornithine Cause Both Enhancement of and Refractoriness to Formation of Endothelium-Derived Nitric Oxide in Pulmonary Artery and Vein, 315

Effects of Melittin on Endothelium-Dependent Relaxation and Cyclic GMP Levels in Rat Aorta, 463

SC-39026, a Serine Elastase Inhibitor, Prevents Muscularization of Peripheral Arteries, Suggesting a Mechanism of Monocrotaline-Induced Pulmonary Hypertension in Rats, 814

Stimulation of Aortic Smooth Muscle Prostacyclin by Serotonin: Role of Distinct Receptors in Contractile and Synthetic States, 806

Transendothelial Transport and Metabolism of Adenosine and Inosine in the Intact Rat Aorta, 1147

**Vasodilation**

Characteristics of Flow-Mediated Brachial Artery Vasodilation in Human Subjects, 32

Effects of Melittin on Endothelium-Dependent Relaxation and Cyclic GMP Levels in Rat Aorta, 463

**Vasodilators**

Effects of Calcium Channel Antagonists on Carotid Sinus Baroreflex Control of Arterial Pressure and Heart Rate in Anesthetized Dogs, 276

**Vasopressin**

Pressor Hormones Regulate Atrial-Stretch-Induced Release of Atrial Natriuretic Peptide in the Pithed Rat, 482

Role of Vagosympathetic Fibers in the Control of Adrenocorticotrophic Hormone, Vasopressin, and Renin Responses to Hemorrhage in Fetal Sheep, 515

Vascular Responses to Vasopressin are Tone-Dependent in the Cerebral Circulation of the Newborn Pig, 136

**Venodilatation**

Importance of Venodilatation in Prevention of Left Ventricular Dilatation After Chronic Large Myocardial Infarction in Rats: A Comparison of Captopril and Hydralazine, 330

**Venous compliance**

Importance of Venodilatation in Prevention of Left Ventricular Dilatation After Chronic Large Myocardial Infarction in Rats: A Comparison of Captopril and Hydralazine, 330

**Ventricular fibrillation**

Improved Safety Factor for Triphasic Defibrillator Waveforms, 1172

**Ventricular dilation**

Hypoxia-Induced Acute Changes in Capillary and Fiber Density and Capillary Red Cell Distribution in the Rat Heart, 742

**Ventricular dynamics**

End-Systolic Pressure As a Balance Between Opposing Effects of Ejection, 265

**Ventricular hypertrophy**

Right Ventricular Concentric Hypertrophy and Left Ventricular Dilatation by Ductal Constriction in Fetal Rats, 1137

**Ventricular interaction**

Determinants of Left Ventricular Filling and of the Diastolic Pressure-Volume Relation, 827

**Ventricular septal defect**

Renin-Angiotensin II Response to the Hemodynamic Pathology of Ovines With Ventricular Septal Defect, 524

**Verapamil**

Impaired Canine Coronary Vasodilator Response to Acetylcholine and Bradykinin After Occlusion-Reperfusion, 43

**Veratrine hydrochloride**

Cardiac Sympathetic Afferent Cell Bodies Are Located in the Peripheral Nervous System of the Cat, 554

**Videodensitometry**

Digital Angiographic Impulse Response Analysis of Regional Myocardial Perfusion: Linearity, Reproducibility, Accuracy, and Comparison With Conventional Indicator Dilution Curve Parameters in Phantom and Canine Models, 853

**Viscoelasticity**

Determinants of Left Ventricular Filling and of the Diastolic Pressure-Volume Relation, 827

**Voltage clamp**

ATP Regulation of the Slow Calcium Channels in Vascular Smooth Muscle Cells of Guinea Pig Mesenteric Artery, 145

Calcium Current  $I_C$  Is Increased in Isolated Adult Myocytes From Hypertrophied Rat Myocardium, 753

Inhibition of Na-K Pump Current in Guinea Pig Ventricular Myocytes by Dihydroouabain Occurs at High- and Low-Affinity Sites, 1063

**Vortex formation**

Real-Time and Simultaneous Measurement of Tricuspid Oifice and Tricuspid Anulus Areas in Anesthetized Dogs, 427

**Xanthines**

Anti-inflammatory Actions of Enprofylline, a Modified Xanthine, in the Canine Forelimb, 235

**Xanthine oxidase**

Reactive Oxygen Metabolites Relax the Lamb Ductus Arteriosus by Stimulating Prostaglandin Production, 1
